RESPONSE AND ELECTION

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Sir:

In response to the Requirement for Restriction dated May 28, 2004, Applicants elect to prosecute the claims of Group I, with traverse with respect to the requirement for restriction between claims of Groups I and III.

Claims of Group I are directed to kits comprising a standard diluent comprising a biological fluid that normally includes two or more different target analytes but that is substantially free of these analytes and a predetermined amount of one or more concentrated materials that collectively or separately contain these target analytes.

Ouan NGUYEN

Application No.: 10/017,788

Page 2

Claims of Group III are to a process for preparing the standard diluent of the Group I kits.

The claims of each class are indicated as being only in one subclass of the USPTO classification system. The Group III claims are directed to a process for preparing a significant component of the Group I claimed kits. These groups of claims are thus quite closely related. With only two subclasses to be searched, no undue burden is seen.

Applicants respectfully request withdrawal of the requirement for restriction between Groups I and III.

CONCLUSION

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned.

Respectfully submitted,

Joel G. Ackerman Reg. No. 24,307
